State Economy Overall

- Rhode Island's economy grew at a slower rate than the United States in 2013. Rhode Island's real gross state product increased by 1.4 percent compared to 2.2 percent for U.S. gross domestic product. (Source: BEA)
- The employment picture in Rhode Island has improved. The unemployment rate in Rhode Island declined from 9.4 percent in October 2013 to 7.4 percent in October 2014. This is above the national average of 5.8 percent for the same time period. (Source: BLS)

Employment

- Rhode Island's small businesses employed over half or 221,636 of the state's private workforce in 2012. (Source: SUSB)
- Almost all firms with employees are small. They make up 95.8 percent of all employers in the state. (Source: SUSB)
- Firms with fewer than 100 employees have the largest share of small business employment. Figure 1 offers further detail.
- In Rhode Island, small businesses created 4,671 net new jobs in 2012. The biggest gain was in the smallest firm size category of 1-4 employees. (Source: BDS)
- The number of people who were primarily self-employed in 2013 increased by 3.4 percent relative to the previous year.
- The state's private-sector employment growth increased by 1.2 percent over the 12-month period ending in October 2014; this was below the national average growth rate of 2.3 percent. (Source: BLS)

The *Small Business State and Territory Profiles* report on the economic status of small business from 2007 to 2014. They include information on the number of firms, employment, demographics and other topics using the most recently available government data. They are a reference tool for researchers, policymakers, and small entities who are interested in how small firms are performing regionally or nationally. Note that this report defines small businesses as firms with fewer than 500 employees.

Income and Finance

- The number of banks reported in the Call Reports between June 2013 and June 2014 declined. (Source: FDIC)
- In 2012, 17,375 loans under \$100,000 (and valued at \$209.6 million) were issued by Community Reinvestment Act lending institutions in Rhode Island. (Source: FFIEC)
- The median income for individuals who are self-employed at their own incorporated businesses for the past 12 months was \$52,322 in 2013. For individuals self-employed at their own unincorporated firms, this figure was \$23,587. (Source: ACS)

Note: Median income represents earnings from all sources. Unincorporated self-employment income includes unpaid family workers, a very small percent of the unincorporated self-employed.

Business Owner Demographics

- Table 1 shows the top industry for nine business owner demographics. For example, 30.8 percent of female-owned businesses were in the professional, scientific, and technical services industry, and female-owned firms made up 17.0 percent of this industry.

Table 1: Top Industry by Demographic Group in Rhode Island, 2007
